DIGITAL COMMUNICATIONS

SeanBruna.com (lab web page and blog): In addition to hosting publications, data, promoting student led research, and other information on current lab activities, we provide resources for the broader community on topics. <http://www.seanbruna.com>

Gatekeeper Project: The Gatekeeper Project is an attempt to crowdsource data collection on the composition of the Editorial Boards of academic journals. Working with Dr. E. Bruna (University of Florida), we seek to (1) understand how and why Editorial Board composition varies within and across disciplines and then (2) use these data to help scholars, academic societies, editors, and publishers in their efforts to make the Editorial Boards of our journals more inclusive and diverse. <http://brunalab.org/gatekeepers/>

Society for Medical Anthropology: As webmaster for the Society, I updated the website to meet current (dis)ability standards and web standards. The site hosts information for members, including a popular list of open job opportunities. Under my supervision the views to the website have increased to 5,000 visitors per month. <http://www.medanthro.net>

Cascadia Seminar In Medical Anthropology: The Cascadia Seminar is a small, intimate, high-interest, low-cost weekend conference organized collaboratively by medical anthropologists on faculty at a number of

different universities and colleges in the US Pacific Northwest and British Columbia. In 2017 I updated the website and included an archive of previous talks. <http://www.ascadiasemiar.org>
